DOMEKT

Residential
ventilation units
with heat recovery

DOMEKT features

ENERGY SAVING

- Modern energy efficient EC fans.
- High efficiency rotary and counterflow plate heat exchangers.
- Low resistance and high filtration class air filters.
- Over 20 functions optimise unit's operation and reduce running costs.

SMART CONTROL

- "Komfovent Control" app.
- Ability to control via a web browser.
- Integration into a smart home management system.
- Demand control ventilation according to the air quality parameters by connecting additional sensors.

HUMIDITY CONTROL

- Optional heat exchangers – sorption-enthalpy rotary or enthalpic counterflow plate – efficiently recover humidity.
- Air quality function ventilates premises according to the user desired humidity settings.

RELIABLE AND DURABLE CASING

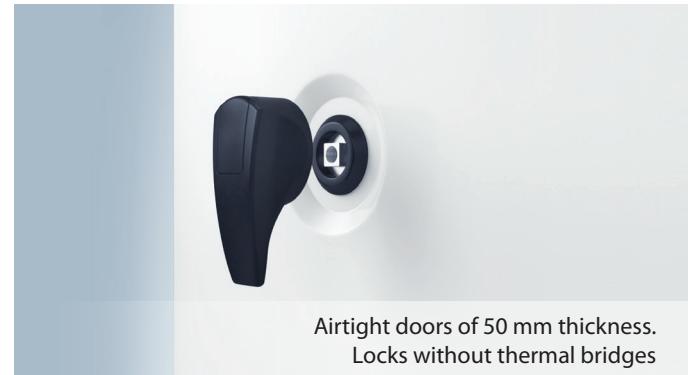

- Powder coated (RAL 9003) galvanized steel panels insulated with mineral wool.
- Hydrophobic and lightweight EPP (expanded polypropylene) casing without thermal bridges and condensation is designed for several units.

LOW NOISE LEVEL

- Perfectly balanced fans.
- All of the unit's components are aerodynamically matched.
- Sound absorbing insulation and special composite materials.

LONG-LIFE SOLUTIONS

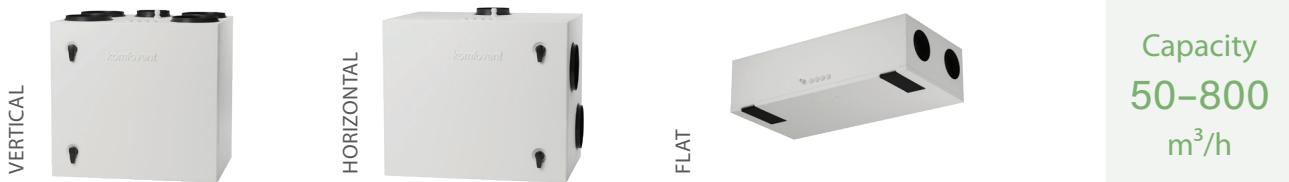

- Variable rotary heat exchanger speed control.
- Fan motors are protected from humidity and dust, and equipped with long-life bearings.
- Up to 10 safety functions, which ensure reliable operation of unit components.

Range review

DOMEKT – residential ventilation units with heat recovery. Depending on the individual requirement, a rotary or counterflow plate heat exchanger, vertical, horizontal or flat units can be selected from a wide range of modifications.

TYPES OF THE UNITS

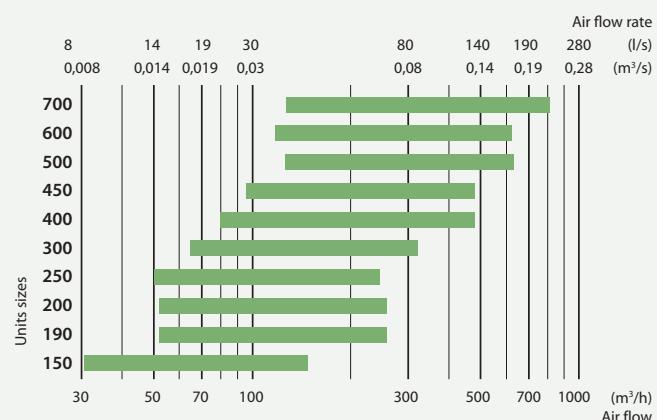

TYPES OF THE HEAT EXCHANGERS

Domekt R
with rotary heat exchanger

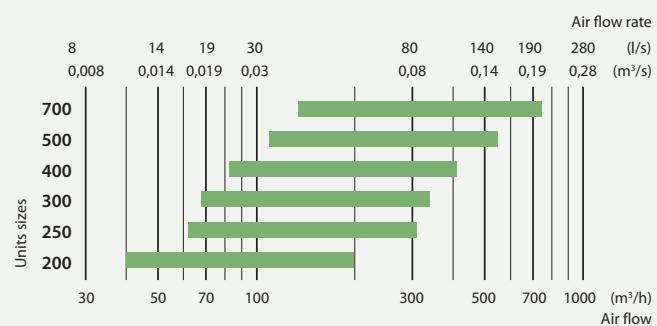

Sizes and capacities of Domekt R units

Domekt CF
with counter flow heat exchanger

Sizes and capacities of Domekt CF units

KOMFOVENT CONTROL app

Smart control systems C6, C6M, C8 for DOMEKT units

For both: beginners and advanced users

A user-friendly interface enables intuitive navigation and control of the unit. The core philosophy behind the design of C6, C6M, C8 – the ventilation unit would operate properly without constant adjustments from the user. Different ventilation modes are optimized for the user's daily needs. Automatic air quality control selects the most appropriate mode and ensures the comfort conditions in the room. Advanced users can control a unit's operation according to his needs, as many settings and control possibilities are provided as well:

- Air flow control: CAV / VAV / DCV*.
- Intensity control by air quality, CO₂, humidity level.

Operating modes

- 8 preset modes.
- Intelligent energy saving algorithms.
- Automatic air quality control with optional AQ sensor.
- Extensive weekly schedule.

Energy counters*

- Real-time energy consumption indicator.
- Possibility of observing the running costs of the ventilation unit.
- Heat recovery counter.

* Except C8 control system.

App "Komfovent Control"

Control panel

Webserver

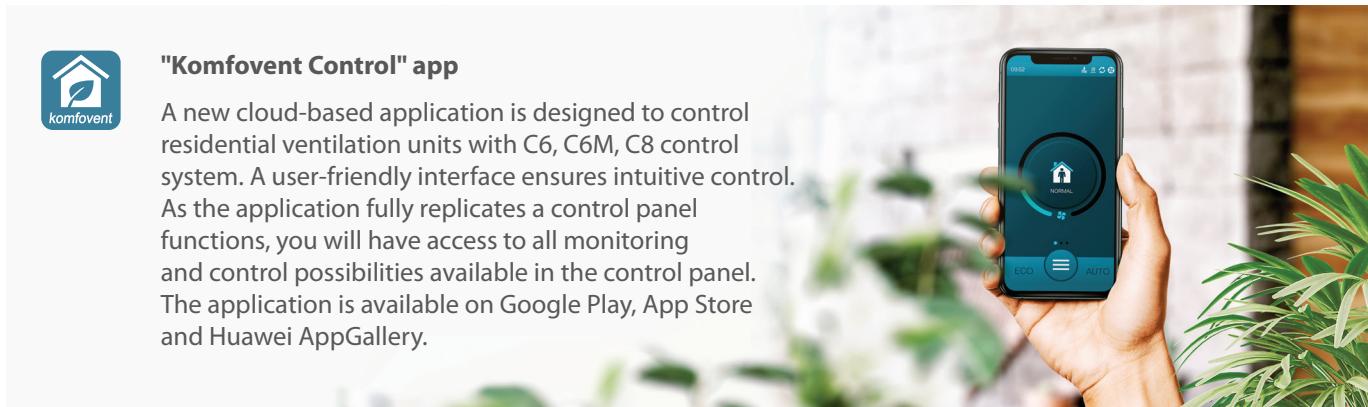

Connectivity & Protocols

"Komfovent Control" app

A new cloud-based application is designed to control residential ventilation units with C6, C6M, C8 control system. A user-friendly interface ensures intuitive control. As the application fully replicates a control panel functions, you will have access to all monitoring and control possibilities available in the control panel. The application is available on Google Play, App Store and Huawei AppGallery.

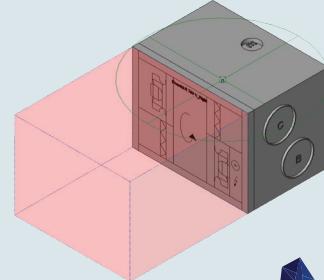

DOMEKT SELECTION SOFTWARE

- For DOMEKT units with a capacity from 50 to 800 m³/h.
- Parameters are calculated for specific climate and operating conditions.
- Selection of unit's accessories.
- Comparison of the units.
- DOMEKT 3D REVIT models are available in the selection software.

KOMFOVENT DOMEKT + REVIT

Easy units' integration into building information modeling – 3D REVIT models of DOMEKT units are available in the REVIT add-in KOMFOVENT HUB library.
